## CAREER OBJECTIVE

I am a dedicated Front-End Developer with a strong understanding of web design and development. My goal is to create websites and applications that look good, work well, and are easy to use. I enjoy learning new things and want to grow by working on real-world projects that help people and solve everyday problems. My next goal is to become a Full-Stack Developer.

---

## SKILLS

- Programming Languages: JavaScript
- Frameworks & Libraries: React, Next.js, Node.js, Express, Tailwind CSS
- Database: MongoDB
- Tools & Technologies: Firebase, Figma, Photoshop, Canva, NextAuth

## SOFT SKILLS:

Team Collaboration | Effective Communication | Time Management

---

## PROJECTS

### 1. CodRed – Forum for Developers (Team Project)

[Live Project](#) | [GitHub](#)

This is a forum for developers where users can find coding problems, ask questions, and get answers. It also has a code editor section where users can view and test code shared by others. Users can create communities to connect and interact with other developers.

#### Main features:

- Code Editor
- AI Chatbot for answering common questions.

#### My contribution:

- Designed Home UI with rich text editor and interaction buttons
- Built authentication (email, Google, GitHub) with password reset via email
- Developed a search feature to find users or content
- Created an AI chat feature accessible from the search bar

### 2. Aura Fusion GYM

[Live Project](#) | [GitHub Client](#) | [GitHub Server](#)

This is a fitness-focused website where users can find trainers based on their needs. Users can also apply to become a trainer. Once approved by the site admin, trainers get access to a dashboard where they can manage their available time slots and schedules.

#### Main features:

- Secure Stripe payment gateway for class/trainer bookings.
- Users can read health & fitness-related blog from community section.

### 3. Hotel Booking Platform

[Live Project](#) | [GitHub Client](#) | [GitHub Server](#)

This website is built for hotel room booking. Users can view hotel details, browse available rooms, and book their favorite room based on their preferences.

#### Main features:

- Sort rooms by price (ascending or descending).
  - Automatically displays special offers and promotions in a stylish pop-up when users visit the site.
- 

## EDUCATION

Bachelor of Business Studies (2018 - 2021) from Government City College, Chattogram.

---

## Certifications & Language

- Completed level-1 course from Programming Hero(Batch-10) | [Certificate](#)
- Bengali (Native) | English (Professional) | Hindi (Fluent)
